مركز التوريدات والصيانة الصناعية
INDUSTRIAL SUPPLY & MAINTENANCE CENTRE

About Us

Established in early 1985, the supply and maintenance center is intended to serve the general maintenance sector wherever it is by providing consumable maintenance materials such as bags, binders, rubber rings, brake pads and maintenance materials such as oils, special lubricants, industrial adhesives and industrial factory supplies.

Our philosophy is summarized in our motto, a triangle within a circle. The triangle symbolizes stability and strength while the angles represent quality, availability and services to ensure continuity as symbolized by the circle.
